<sup>1</sup> Updated as of 10 Sept 2017

<sup>2</sup> Main Library (5<sup>th</sup> and Copper) has available for free use: KIC Click Mini Scanner in the Genealogy Center (2<sup>nd</sup> floor). You can scan a document to a USB drive as a PDF, JPEG, PNG, Searchable PDF (can be opened in Adobe Reader) , or Rich Text (can be opened with a word processing program). You can also save the document as a QR code and then use an app to open it on your handheld device. Editing options include the ability to crop, adjust brightness and contrast, adjust scanning resolution, and rotate. Just bring your flash drive and what you want to scan. And once again, it's FREE! Plus the staff is happy to show anyone how to get started.
